2. Citations and explanations :

Reference is made to the following document.

D1 : 2002-74870(SK TELETECH CO.,LTD) 04. OCTOBER 2002

D2 : JP 09-205476(HITACHI LTD) 05. AUGUST 1997

1) Novelty and Inventive Step

Claims 1-11 of the present invention relate to a driving apparatus enabling a sliding-type portable wireless terminal to be opened and closed with reduced noise and through multiple stages of opening. The portable wireless terminal may have various functions corresponding to each of the multiple stages. The driving apparatus comprises: a main body; a sub body sliding in a longitudinal direction of the main body, so as to be opened from or closed onto the main body; a first magnetic module provided at a rear surface of the sub body and having one of 3 magnets, the first magnet having three pairs of N and S polarity parts in a twisted arrangement in a longitudinal direction of the first magnet; and the second magnetic module wherein the sub body is stopped at 3 different positions by sliding on the above main body and including N and S polarity.

D1 relates to a slide type portable phone using a slide module which is provided to remarkably reduce the length of the main body of the phone by making an upper housing and a lower housing being able to slide.

D2 relates to a slide type portable phone miniaturized and made thinner by providing a slidable device in part of the case body and to provide portable terminal equipment for protecting the reception part and a liquid crystal display part by a slidable case body.

Neither D1 nor D2 discloses a first and a second magnet module for reducing noise when opening and closing a sub body, and the sub body is opened and closed in a longitudinal direction of the main body by being located at the rear surface and a front surface of a main body.

Therefore, Claims 1-7 meet the criteria set out in PCT Article 33(2)-(3).

2) Industrial Applicability (PCT Article 33(4))

Claims 1-7 meet the criteria set out in PCT Article 33(4) because Claims 1-7 are considered to be industrially applicable.
